

Publicity Officer's Report for 2013-14

Information prior to and following our meetings has been sent to The Courier. The majority of these have been printed and have resulted in a number of queries by those interested in the Society or requesting advice. On rare occasions photographs appeared in this publication. One of the more unusual requests was for a request to attend a meeting and take photographs of members who were willing. This was from a final year student at Duncan of Jordanstone who intend producing hand-drawn images for printing as 'stamps'.

Details of our meetings, along with photographs, were also sent to various philatelic magazines with reasonable outcomes.

At Congress 2013, the Society tabled was manned by members and attracted a number of interested spectators many of whom purchased commemorative covers.
